

Quick Quaker Oats

Cooks to perfection in 3 to 5 minutes

The Quick Style

The quickest-cooking oats in the world

Now your grocer has Quick Quaker Oats, as well as the regular Quaker.

The Quick cooks in a hurry. It cooks to perfection in 3 to 5 minutes.

It is the quickest-cooking oats in the world.

Thin flakes, partly cooked

In flavor and quality the two styles are identical. Both are flaked from queen grains only—just the rich, plump, flavory oats.

We get but ten pounds of Quaker Oats from a bushel. And that super-flavor has made this brand the leading oat dish the world over.

But in Quick Quaker the oats are cut before flaking. They are rolled very thin and are partly cooked.

So the flakes are smaller and thinner—that is all. And those small, thin flakes cook quickly.

Now Quaker Oats offers you two great advantages. It offers you flavor which no other oats can match. And it offers, if you wish, the only oats that cook in from 3 to 5 minutes.

For one or both of these reasons you want Quaker Oats. Be sure that you get it, and get the style you want.

Regular Quaker Oats

Come in package at left—the style you have always known.

Quick Quaker Oats

Come in package at right, with the "Quick" label.

Your grocer has both. Be sure to get the style you want.

MORE LABOR NOW

Reports on Unemployment Situation in Kansas Encouraging.

Twenty-One of Thirty Cities Show Greater Number at Work.

According to the November report of the employment service of the United States department of Labor, covering the unemployment situation in the fourth district, comprising the states of Minnesota, Iowa, Missouri, North Dakota, South Dakota, Kansas and Nebraska, there were employed in the centers of industry in those states on November 15, more men, by 7,753, than were employed on October 15, a month previous.

The reports on the employment situation were compiled in Kansas City, by Richard T. Jones, district director of the service, from reports received from 1,140 firms in thirty cities in the states named.

On October 15, these firms employed a total of 217,278 men; on November 15 they had 225,029 men on their payrolls.

Twenty-one of the thirty cities showed an increase in the number of men employed, nine showing decreases. None of the decreases or increases were large or significant.

Increase in Topeka.

Topeka, in which city twenty-three industries reported, had 4,505 men employed on October 15, and had increased this number to 4,673 by November 15, the statement shows.

In its general summary of the labor situation in the state of Kansas during the month noted the bulletin says: "The estimated number of unemployed in Kansas during October was 4,470, of which 72 per cent were unskilled. Reports indicate that approximately 40 per cent of the total unemployed are engaged in part-time work. Principal industries operating on part time basis are railroads and automobile tire factories. Fair demand for corn huskers and farm help."

Summary For Topeka.

The summary for Topeka, is as follows: "Common labor full-time employed and public work continues on a satisfactory scale. Good call for corn huskers and farm labor. Local building program, including a \$1,000,000 hotel, absorbing all local skilled mechanics and a shortage of this class of labor prevails. Better employment in meat packing, paper and printing; also mattress plants. Ice plants reveal decreased forces."

Of Wichita it is said: "Labor demand equal to supply. Common labor all employed on buildings, road work and railroads. Some hands recently laid off by partial closing of mills, due to car shortage. Demand for farm labor light. Surplus of office help, male and female. Better employment in meat packing, paper and printing, jump factories, railroad shops and street railways."

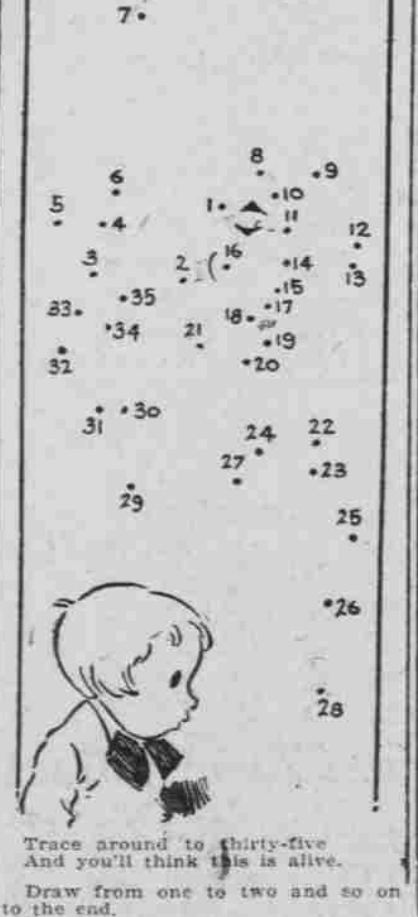

Fashion, Searching for Novelty, Again Raids the Barnyard

Paris, Dec. 27.—Fashion, in her ever insistent search for novelty, again has invaded the barnyard. Rooster feathers have come back. They are the latest thing on smart Paris hats, and even on evening gowns. All colors are used, and when the rooster can't supply the shade, the dyer does. However, natural white and black are the most popular colors.

Rooster feathers probably are about as cheap a material as can be found, but their use on chic hats has not lowered the price of bonnets. One little hat shop is displaying these "simple but smart" things at 750 francs, while other stores ask 500 and 600 francs.

TRIP FROM CEMETERY FATAL.
Woman Is Killed While Going Home from Funeral of Son.
Ennis, Tex., Dec. 27.—Mrs. Amelia Starek, 40, will be buried here today beside her 16-year-old son whose funeral she attended Tuesday. While returning from the cemetery, the horse which Mrs. Starek was driving ran away. Mrs. Starek was thrown from the vehicle and almost instantly killed.

Record Crop But No Buyers.
Osaka, Japan.—Formosa has 4,480,000 koku of rice to sell and thus far no buyers. Last year the island shipped 1,020,000 koku to Japan but this year, with a record crop in Formosa and Japan, there is an oversupply. Later estimates of Japan's crop make it from 500,000 to 1,000,000 koku less than originally estimated.

At Pelletier's—

MR. BARGAIN MAN is in full charge!

MR. BARGAIN MAN is making things hum at Pelletier's. He's arranged some After-Christmas sales that are well worth while. He has lowered prices to the very limit in many departments!
